Business Internships

This opportunity is open to current science teachers, UCR student teachers in science, and community college students who have demonstrated an interest in science.

- **Work in a business using your science, technology, engineering or math skills.**
- **Earn a stipend of up to \$4,000 per internship (may be renewable).**
- **Learn about the business side of science and technology.**

Interns are required to complete a culminating activity. The pay range is \$18-\$25 per hour, depending upon the internship. Positions are limited. Applications will be accepted beginning on January 1st, 2008 and the selection process begins on April 1st, 2008.
