

TTSM
TOMORROW'S
TEACHERS IN
SCIENCE & MATH

Jessica Carrillo

- 3rd Year MTSS**
- *Vice President*
 - *Secretary*
 - *Public Relations*

Hello there, I am Jessica Carrillo. I am a third-year student majoring in MTSS. I am running for Vice President, Secretary, and Public Relations; I am open to any positions I am voted for. I plan to become a teacher to interact with a new generation and implement change with them. I want to understand the different components of the education system to see where we can understand the changes required to improve the system itself. To do this, we need to have a network system among teachers, which SMI/TTSM provides with its general meeting and social meetings. A good leader must remember to create and manage a space where future teachers can connect.

Katherine Quevedo

- 3rd Year MTSS**
- *President*
 - *Vice President*
 - *Community Chair*

Hello my name is Katherine Quevedo and I am currently a third year MTSS major. The positions I am running for are president, vice president, and community chair. I decided to become a math teacher because I love to teach math and I think I'm pretty good at teaching. Not only that, but I have had teachers in the past who are not effective enough to the point where I've had to teach myself the material. I learned about TTSM by the SMI program. TTSM has given me lots of helpful information that has been helping me out so far and that will for sure help me with my future career. I made a great choice joining this club. I do believe I will be a great leader for this club. I have past experiences of being part of the board members for other clubs. I've been treasurer, secretary, and president in the past. I believe I did a decent job in the positions that I've been in. Vote for me!

2023-2024 OFFICERS ELECTION CANDIDATES BROCHURE

Riley Hunke

3rd Year MTSS

- **Vice President**
- **Community Chair**
- **Secretary**
- **Public Relations**

Hello everyone! I am Riley Hunke and I am a third year MTSS Major. I am running to be TTSM Vice President, Community Chair, Secretary, or Public Relations Officer. I want to be a teacher because I had experienced math classes in my K-12 education where I didn't feel heard or respected and I want to make sure my students received the respect they deserve while also being pushed to their highest potential. I am currently an SMI Scholar, a peer mentor, and work in the SMI office as a student assistant. Through SMI and previous experiences in leadership, I am familiar with being in these types of roles. Because of this I would make an excellent candidate and serve our future teachers well.

Imrandeep Kaur

1st Year Math Secretary

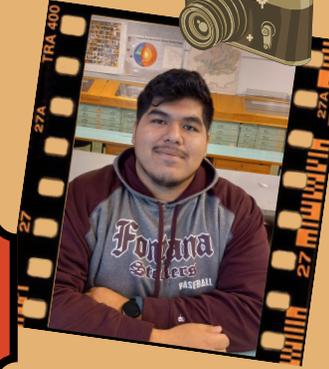

Hello, my name is Imrandeep Kaur and I am a first year math major. I am running for secretary. The reason why I start wanted to be a teacher was because my mother was a teacher and tutor and her experiences influenced me to wanting to become a teacher as well. I would always help my friends with their homework and had tutored some elementary students before as well, which made me want to be a teacher more. I found TTSM on Instagram during the summer and got started by attending their first general meeting in the fall quarter. I joined to gather insight and tips on what I should be doing during my 4 years in college and how to become a better teacher. Even though I couldn't join the socials last quarter, just going to the general meetings was very informative and fun as well. I am a very organized person and was secretary for 2 years in my high school's gardening club.

Jonathan Martinez

3rd Year MTSS Treasurer

Hello, my name is Jonathan Martinez. I am a third year majoring in Mathematics in Secondary Education. I was inspired to become a teacher by my high school math teacher. He established a safe space for students to learn both during on and off school hours. Like him, I want students to worry about about the material taught in class, instead of worrying of finding a place to study and get help. Although my journey with SMI and TTSM has just begun, only having attended a few events, I plan to do my best stay connected within the community and learn with one another. With my strong mathematical skills from recently taking economics and statistic classes, I am determined to use these transferrable skills to fulfill the role as treasurer. When it comes to those that are depending on me, letting them down is no option.

The logo for TTS&M, featuring the letters T, T, S, and M in a bold, white, sans-serif font. Each letter has a thin white diagonal line running from the top-left to the bottom-right. The logo is set against a dark green, rounded rectangular background.
